Specifications

Packaging
- Quantity: 1 Cappuccinatore and 1 milk pipe

Highlights

Automatic milk frothing
Thanks to the new cappuccinatore you can turn your Philips Saeco Espresso machine in a Cafè@home!! It sucks the milk from the milk pitcher/milk pack , mix it with air and delivers foamy milk into your cup. You just have to add a delicious espresso to taste your cappuccino or latte macchiato!

New ergonomic design
For easier handling.

No small parts to be cleaned
It is not only easy to use but also hassle-free! Once you get your foamy milk, just easily disassemble it: the dishwasher is all you need!
